## **THE GAME**

You, Ed Lines, the famous reporter have sent the "SUBSUNK" message from the stranded submarine "SEA-LION" only to have it intercepted by enemy agents.

The enemy agents use a mysterious magnetic force to draw the sub into "SEABASE DELTA". You must unravel the secrets held in the base then locate the mini-sub and make good your escape.

## **LOADING**

1. Place the tape in the cassette unit and rewind to the beginning.
2. Hold down CTRL and press the small ENTER key.
3. Press PLAY on the cassette unit.

NOTE: Full loading instructions can be found in your Amstrad Manual.

## **PLAYING THE GAME**

To move around SEABASE DELTA, and perform any actions, you must enter instructions into the computer in the form of Verb/Noun sentences (you will be informed of any consequences of those actions). For example, if you were at a location with an exit to the North, entering GO NORTH (some instructions can be abbreviated to one letter, i.e. N for North) would take you to the new location. During this adventure you will discover various objects which may, or may not, help you.
